

Partnership for Academic Competition Excellence

PACE is a national non-profit organization dedicated to improving and growing high-school quizbowl. We know it can be hard to find the quizbowl resources you are looking for, so we collected several links for you. As a community, we are fortunate that many individuals and groups have worked hard to make it easier for teams to get organized and to improve at quizbowl. We invite you to contact outreach@pace-nsc.org if you have any questions or suggestions. Most of these resources were not developed by and are not affiliated with PACE.
